Saturday is gymnastic stadium jumping on turf. Sunday will be cross country on good footing. (In case you haven't been to Tulipsprings yet, we almost always have dry, useful footing because we don't get much rain and the soil absorbs quickly). Cross country obstacles include full courses through Prelim, plus several Intermediate efforts. Everything will be available to school (water, ditches, banks, coffins, corners, etc.). New options in 2010 include the Atomic Pit!
